<u>Scrum Meeting Notes 11-17-2021</u>
Attendees: Raj, Jakob, Aayush, and Mark

- Agenda
    - Team Presentation
    - What needs to be left for Sprint 2
    - What Sprint 3 is going to look like
- Presentation needs to be gone over in detail along with create the presentation and what roles everyone should be comfortable with
- Go over the presentation, who says what, which order everybody is going to talk, how long each individual should speak for
- Roles should be comfortable and what each person should say along with how long each person should talk about
- Went through a dry run and made sure everyone knows where they are going to be queued to speak
- Raj had some things that he wanted to change with the presentation along with what he had to say
- Discussed what still needs to be done for Sprint 2
- Twitch still needed to be implemented along with the Twitter filtering
- There might be a potential issue with Twitter filtering so we need to have a backup plan of what we are going to do if it cannot be fully implemented
- Discussed potential sprint 3 details
- Heroku setup has to be carefully looked over as we are using an angular and express stack and we need to ensure to get everything working with heroku
